

# Zanditon's Last Day in Business!

## IN HIS OLD LOCATION, 110 EAST SIXTH STREET

### TONIGHT AND TOMORROW

**M**R. ZANDITON will celebrate his closing days in the old store with the biggest price-cutting, the grandest value-giving sale, in the history of his whole career. Mr. Zanditon wishes to move as little of his present stock to his new location as possible.

**CAR-LOADS AND CAR-LOADS** of New Goods are at the depot waiting to be moved into the new store.

Mr. Zanditon figures that it is cheaper to sell the merchandise in the old store even at a loss than it is to move it.

So by all means come tonight, come tomorrow. You can buy this season's latest style Ladies' Suits, Coats, Jackets, Skirts, Waists, etc., Men's and Boys' Suits, Overcoats, Trousers, Furnishing Goods, etc.,

## FROM $\frac{1}{3}$ to $\frac{1}{2}$ LESS

**THAN YOU HAVE TO PAY IN ANY OTHER STORE IN TOPEKA**

Come tonight, come tomorrow, and help Zanditon celebrate his last days in the old store, and reap a harvest for yourself and your whole family.

No prices quoted here. They're positively so low we're ashamed to put them in print.

## Watch for Opening Announcement of Zanditon's New Big Store!

Open Tonight and Tomorrow Night

**ZANDITON'S** 110 East Sixth St.  
The Low Price Store

#### SYL DIXON'S CORN TRAIN.

It Will Leave Topeka for East Nov. 10—Unique in Features.

Syl Dixon's train load of Kansas agricultural exhibits will leave Topeka, the assembling point, on Nov. 10, according to an announcement sent out today by Mr. Dixon.

This train is to go to New York city and back, stopping at all towns of any size on the route both going and coming. The train will make the east-bound journey via Chicago, and the west-bound journey via St. Louis. There will be exhibits on the cars from many of the leading agricultural counties of the state, and especially the western Kansas counties which are just now enjoying such prosperous times. In addition there will be 25 carloads of flour attached to the train, as the exhibit of the Kansas mills.

"I intend," says Mr. Dixon, "to make this train eclipse the famous McKinley corn train of 1896. It will be the biggest and most elaborate train ever run, and it will do the counties represented a lot of good."

Mr. Dixon will take along with him two new features for a train of agricultural products. He will have a steam calliope attached to the train, to announce its arrival in town, and draw the crowd. He will also have with him T. A. McNeal, the crack Kansas spellbinder, to address the crowds, and tell them some interesting things about Kansas.

The schedule thus far announced is over the Santa Fe to Chicago. From Chicago to New York the schedule has not yet been prepared.

#### SAID "GOODBYE, EVA"

Member of the Apostolic Church Then Shot Himself Dead.

Seattle, Wash., Oct. 18.—With the words "Goodbye, Eva," John S. Kelly, a young workman, drew a revolver and fired a bullet through his head on the platform of the Apostolic Faith church here last evening.

The girl he referred to was sitting in the audience within ten feet of the young man when he fired the fatal shot. Kelly died at the Wayside Emergency hospital a half hour later.

Kelly, who is 19 years of age, met Eva

#### TO LIVE ON PEANUTS.

President of Aurora College Will Try It Sixty Days.

Chicago, Oct. 18.—To prove that the Aurora board of health is wrong in attributing a case of poisoning to peanuts, Thomas J. Allen, president of the Aurora college of Aurora, will today begin to live on a diet of peanuts for sixty days. In order not to do too much violence to his system he will mix the ground peanuts with the nut part of wheat, in the proportions of two-thirds peanuts and one-third wheat.

Mr. Allen has been a vegetarian and an experimenter in special food for several years. Beginning today he will undergo a daily examination at the hands of Dr. C. W. Guyer, president of the Aurora board of health, who will weigh Mr. Allen each day to test his heart action and keep a record of his physical condition from day to day.

An Aurora man recently became ill after eating peanut candy and the Aurora board of health has about determined that there is danger in the peanut. The aspersion cast upon this favorite food roused the ire of Mr. Allen and he called up Dr. Guyer and made his offer of a sixty day experiment.

Mr. Allen has laid in a large supply of peanuts and will take his ground food twice a day, noon and evening. He will drink plenty of water with his meals, but nothing else.

#### AT THE THEATERS.

"A laugh is worth a hundred groans in any market," wrote the brilliant Charles Lamb. That partially explains the great success of "Are You A Mason?" the clever comedy that will be produced at the Grand on Saturday matinee and night. A brighter and more cleverly constructed farce has never been presented on the stage. The story tells the troubles of an elderly gentleman and his son-in-law, who, in order to account for their frequent absences from home, pretend to be Free Masons. The farcical possibilities of the piece are obvious. To these are added a new version of the central idea in "Charley's Aunt," and half a dozen subsidiary ideas, each replete with fun.

"The Sunny Side of Broadway" will be at the Grand Sunday matinee and night, with the extremely popular and original Irish comedians, Murray and Mack, in the above edition of their especially written laughing vehicle.

Williams and Walker in their new show entitled "Bandanna Land," will be at the Grand on October 23. This is said to be the best show in which these colored comedians ever appeared, principally because it is distinctly characteristic of the colored man. It is a negro musical comedy, all that this implies—humor, comedy, songs and music.

#### SHE STUCK IN THE MUD.

The Deutschland's Passengers Were Marooned on Board 'All Night.

New York, Oct. 18.—An unusual incident due to a mud bank probably assembled by the shifting tides, prevented the passengers of the Hamburg-American liner Deutschland just in from Europe, from landing last night. The steamer had approached within a few feet of her dock in Hoboken when she stuck in the mud and efforts lasting three hours failed to warp the ship to the dock. More than 800 passengers were marooned for the night, while hundreds of persons who had assembled on the pier had to go away without the relatives and friends whom they had awaited.

#### CHEAPER THAN OIL.

Scientist Finds a Way to Use Graphite as a Substitute.

New York, Oct. 18.—Announcement that he had successfully converted artificial graphite, made from coal dust, into such a condition that it would pass through the finest filter paper, and

that he had succeeded in dissolving graphite in water, was made by E. C. Acheson, "the wizard of Niagara Falls," at the session of the twelfth general meeting of the American Electro-Chemical society in the Chemists club last evening. Both of these discoveries will have a wide application in industry, it is said, especially that of the solution of graphite in water, for it can be used successfully now as a lubricant where heretofore, when dissolved in oil, it has formed a sediment at the bottom resulting in much waste. Graphite is much cheaper than oil.

#### TO TALK DEEP WATER.

Fairbanks Will Discuss Improved Navigation on Speaking Tour.

Chicago, Oct. 18.—The need of improving navigable inland waterways will be the chief topic to be discussed by Vice President Fairbanks during his tour of Iowa and Texas which opens at Sioux City, Iowa, tonight. During his stay in Chicago Mr. Fairbanks said:

"At a time when the west is deeply interested in the gulf waterway plan I think we should not lose sight of the many inland streams that should be improved. There is no doubt that by deepening many of these that the fundamental things sought by the deep waterway plan—improvement of commerce—will be aided. Rates of freight transportation would be lowered in the same proportion as though the Mississippi project were completed, as I hope it will be."

IT BEAT ALL QUAKES.

But the Center of the Last One Was in the Ocean.

Berkeley, Cal., Oct. 18.—Prof. A. O. Leuschner, of the observatory of the University of California, announces that the center of the earthquake disturbance felt on the Pacific coast Wednesday and probably the same as registered on the seismograph in Washington, D. C., was about one thousand miles south of Berkeley in mid-ocean, probably between the Hawaiian islands and the south coast of Mexico. The shock is known to scientists as sea-quake and is usually followed by a tidal wave. Reports of the shock will probably be brought in by incoming ships. According to Prof. Leuschner, the intensity of the quake near its epicenter far exceeded that of the California, Kingston, Valparaiso and Mexican earthquakes.

WENT ON THE ROCKS.

Danish Steamer Wrecked and Twenty of Her Crew Drowned.

London, Oct. 18.—The Danish steamer Alfred Erlandsen has been wrecked on the rocks of Castle Point, near St. Abbe Head, Scotland. She went ashore during a gale last night and twenty of her crew were drowned. A life boat which spent the night looking for the survivors had a narrow escape, being frequently swept by heavy seas.

Jamestown Official Resigns.

Norfolk, Va., Oct. 18.—Stephens W. Boles, chief of division of exploitation at the Jamestown exposition, resigned today, effective November 1. He will return to St. Louis.

#### MORE DEFENDANTS

Forty-five Are Added in the Anthracite Trust Case.

Philadelphia, Pa., Oct. 18.—In an amended bill filed by attorneys for the government in the equity proceedings against the alleged anthracite coal trust, 45 additional defendants are named.

All the new defendants were mentioned in the answers filed by the original defendants, and are named in the amended bill on the ground that they were connected with the previously named coal roads and mining companies by certain financial transactions and coal purchase contracts. Subpoenas will be issued for the last defendants and they will be examined by the government attorneys on all matters mentioned in the government's petition for an injunction against the alleged combination. They will not be examined under oath, as this is expressly waived by the government.

The newly made defendants include the Pennsylvania company for insurance on lives and granting annuities of this city; Mercantile Trust company of New York, Delaware & Hudson company, Elk Hill Coal and Iron company and 40 coal mining concerns.

#### THEY CAN'T FIND HER.

Whereabouts of Mrs. Hartridge Still Baffles Her Relatives.

New York, Oct. 18.—After being missing 14 days during which an assiduous search for her has been kept up, the whereabouts of Mrs. Clifford W. Hartridge, wife of the lawyer, are as much unknown to her husband, her mother and her other relatives as ever.

Mr. Hartridge and Mrs. Leslie W. Russell, Mrs. Hartridge's mother, have no idea where the missing woman is, but they have come to the conclusion, Mr. Hartridge says, that she is either in some sanitarium or in Europe. Mr. Hartridge inclines to the idea that she is in a sanitarium because the letter she sent to her mother just before her disappearance indicated that she was unstrung.

#### Porto Rico Wants a Militia.

Washington, Oct. 18.—Porto Rico is endeavoring to secure representation in the national guard of the United States and to that end the commissioner of the interior of that island has asked the war department what aid will be given in organizing a regiment in Porto Rico.

No person that keeps the food canal clean and healthy can have appendicitis. Hollister's Rocky Mountain Tea cleans the food canal and protects you from disease. 3c. Tea or Tablets. Fred. T. Walker.
